DESCRIPTION

The dream yacht really does exist The new Custom Line flagship marries timeless elegance with Italian design and leading-edge technology. The new flagship is a work of naval art that brings together innovative engineering and refined Italian savoir faire to conjure up endless emotions. Custom Line 140', with her sleek, powerful contours and contemporary style, has the distinctly sporty character, set off by unparalleled elegance and refinement: taught lines sweep from bow to stern in an exciting alternation of materials and colours represented by dark plate glass and light-coloured structural surfaces. LIGHT IS SPACE Every single feature of the Custom Line 140' is the result of meticulous research and attention to detail. The star of the show is natural light, which floods into every setting on the yacht through expansive floor-to-ceiling glazed surfaces. TAILOR-MADE APPROACH The interiors are designed to the highest standards of quality and attention to detail, in line with Custom Line's tailor-made approach and an expression of the outstanding know-how, skills and expertise of the Custom Line Atelier, the entire project management team working in partnership with the production team, and all the highly specialised craftsmen involved in the design and production process. Residential architecture There are many new features on this masterpiece of naval design inspired by residential architecture, to which it adds in-depth research to enhance the shapes and volumes involved.
