Description

An aluminium dream The debut of the new flagship introduces some highly appealing features: designed for the first time entirely in aluminium, master suite on the upper deck, interconnection between interiors and exteriors, glazed surfaces, and refined, sophisticated interior architecture. A terrace on the water The exterior design gives each deck its own individual personality, creating terraces overlooking the water to enjoy at any time of day.The magnificent beach club at the water's edge is in direct contact with the outdoor area aft on the main deck, fitted out as a private lounge and forming an incredibly atmospheric space. LIKE AN ISLAND Interconnection between interiors and exteriors is one of the distinctive features of Custom Line Navetta 50, with large floor-to-ceiling windows and reflective surfaces used to convey the feeling of being on an island rising from the seascape. SOPHISTICATED DETAILING The interior design is based on the concept of sophisticated detailing and the skilful use of fine, sustainable materials by the yard's expert craftsmen.
