Description

The Cranchi M44 HT is a sportcruiser designed for intelligent cruising, combining strong performance with low fuel consumption. Its iconic exterior is matched by a well-optimized and elegant interior where every space is efficiently used. One of its key features is the adjustable soft top, which allows the cockpit to be either fully protected or opened up, offering flexibility and comfort in different conditions. The cockpit layout is practical and well-designed, including a dinette, galley, and relaxation area. At the helm, the instrumentation blends analog gauges with digital displays, creating a modern and appealing control station. Finally, the interior, redesigned by Christian Grande, features a contemporary, elegant, and functional style, achieving a balance between aesthetics and practicality.
