Description

Excellent maneuverability thanks to the propulsive force. The SEABOB F5 convinces by its extremely low weight. With a total weight of only 29 kg, the SEABOB F5 offers a propulsive force in water of 480 newtons. The E-Jet Power System mounted in the SEABOB F5 offers 4 power levels. This power stage gives it a sporty character and guarantees optimal driving pleasure. Its particular dynamics in water are ensured by high displacement power and a low weight-to-power ratio. Thanks to its excellent maneuverability, the SEABOB F5 can be used for all aquatic applications. The sea is his favorite domain. It ensures both on water and when diving. The SEABOB F5 is also perfectly adapted to small and large swimming pools thanks to its exceptional maneuverability.
